

3D VISUALIZATION AND ANIMATION

Supplies and Materials to be Provided by each Competitor:

- Camera or video recording device to record your workstation, with all necessary cables and power
- Two complete graphics workstations, including personal computers, monitors, and input devices
- Software capable of producing 2D and 3D renderings and animations (including proof of licensing)
- Paper and art supplies for storyboard development to include colored pencils, chalk, glue stick, charcoal and regular pencils
- Published reference books and software manuals, which may not take up more than one-half (1/2) cubic foot of space per team member (total of one (1) cubic foot)

Supplies and Materials to be Provided by SkillsUSA Florida:

- Storyboard notebook for each competitor. One notebook should be used for storyboarding the project and will be scanned and submitted with contest materials.
