

## ARCHITECTURAL DRAFTING

---

### Supplies and Materials to be Provided by each Competitor:

- An architectural drafting workstation consisting of a table with work area, space for personal computer and reference material, and a chair
- 110-volt outlet for the computer
- PC-type computer, monitor and input devices
- Architectural Drafting software of choice. Proof of licensing is required.
- Published reference books, tables and software manuals. Reference materials may not take up more than one (1) cubic foot of space and may not be shared between competitors who are completing the project simultaneously. Legal PDF copies of textbooks may be allowed if resident to the student's computer hard drive. All materials used must be listed and submitted with the Integrity Statement.
- Typical personal drafting supplies desired for board drafting and freehand sketching
- Battery operated calculator. Cell phones may not be used as a calculator.
- Board drafting equipment, including drawing board, equipment and drafting supplies, if desired.
- Plain, vellum, or graphing paper to be used for notes, sketches, and other preparation.

### Supplies and Materials to be Provided by SkillsUSA Florida:

- Vellum paper to be used for the final project submission.
