

## Basic Health Care

Contest Update – March 15, 2021

### Preparatory Information

This contest will consist of 5 stations:

1. Technical skill #1: Make an unoccupied bed
2. Technical skill #2: Take vital signs
3. Prepared Presentation
4. Job Interview
5. Anatomy and Physiology Assessment

One technical skill will be recorded and submitted, and one will be performed live. Specific instructions will be made available in the contest platform on April 13, and recordings are due by April 15.

The Job Interview will be completed live.

Contestants will prepare a presentation as outlined in the contest Technical Standards that will be delivered live to the judges. If digital presentation tools (i.e. PowerPoint) are used, they must be submitted electronically to the judges. If a visual presentation tool is used (i.e., tri-fold board or poster), at least 5 photographs of the display must be submitted.

Each contestant will also complete an anatomy and physiology assessment. This test must be proctored (may be proctored by either the local proctor or the exam proctor).
